## EDUCATION

SRTMUN University

B.C.A

CGPA: 8.2

Udgir, Maharashtra

Nov 2023

## PROFILE SUMMARY

Targeting **Full stack Developer** roles with an organization of high repute with a scope of improving knowledge and further career growth.

- Java full stack (**Java, Spring Boot, Rest API, MySQL**) with a strong background in building scalable web applications
- Demonstrated ability to manage and deliver projects **efficiently**, from initial planning and design to final deployment and maintenance.
- Committed to **staying updated** with the **latest industry** trends and technologies, continuously enhancing skills to provide innovative solutions

## PROJECTS

Employee Management

June 2024- Current

Tools: Spring Web MVC, Bootstrap, MySQL-DB

A full-featured employee management application enabling employer to register, authenticate, and manage their employees seamlessly.

Responsibilities:

- Developed front-end using Bootstrap, creating a responsive and intuitive user interface.
- Implemented user authentication and authorization using Spring Web MVC, ensuring secure access to the application.
- Managed the backend entirely with Spring Boot, handling data storage, retrieval, and employee management efficiently.

Currency Converter

June 2023 – July 2023

Tools: React, API Integration

A sleek and intuitive web application allowing users to easily convert amounts between different currencies, leveraging real-time exchange rates.

Responsibilities:

- Developed front-end using React, ensuring a responsive design that works seamlessly across desktops, tablets, and mobile devices.
- Implemented real-time exchange rate fetching using an external API for accurate currency conversions.
- Added swap functionality to quickly interchange source and target currencies.
- Supported multiple global currencies to cater to a diverse user base.
